### KIDNEY TROUBLES

The kidneys are essential organs for keeping the body free from im-purities. If they should fail to work purities. If they should fail to work death would ensue in very short time. Inflammation or irritation caused by some feminine derangement may spread to some extent to the Kidneys and affect them, The cause can be so far removed by using Lydia E. Pinkham's Vegetable Compound that the trouble will disappear.

When a woman is troubled with pain or weight in loins, backache, swelling of the limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys, she should lose no time in commencing treatment with

#### The Great Danderine Never Falls to Produce the Desired Results MISS Lewis' hair was very thin and it was less than two feet in length when she began using Denderine. She says her hair and scalp are now fairly teeming with new life and vigor. That's the main secret of this great remedy's success as a hair grower. It enlivens, invigorates and fairly electrifies the hair glands and tissues of the scalp, causing unusual and unheard-of activity on the part of these two most important organs, resulting in a strenuous and continuous growth of the hair. The following is a reproduction of Miss Lewis' last letter: Dear Doctor Knowlton:-You know I told you in my first letter that my hair would not reach much below my shoulders, and that all of it together only made one tiny braid. I am sending you my photograph, which I had taken at Stevens Bros. It tells the whole story better than I can tell it. Everybody I know is using Danderine, so you see I am doing
